

Intermediate Interior Designer

AVRP Studios is looking for talented design professionals in San Diego, CA. Known for our innovative and award-winning work that encompasses Commercial/Workplace and Healthcare projects across the globe, we are looking for candidates with creativity, positive attitude, and passion for design. You will have the opportunity to collaborate with other talented design professionals of the firm, supported by a structured freedom to exercise creativity and sense of purpose. We strive to connect with our clients in their world and to bring our extensive experience and knowledge to every project and every interaction.

AVRP Studios is seeking an Interior Designer who will perform design and presentation concepts, drafting, plans/designs/furnishes interiors. This will include schematic design tasks and design development, construction documents and administration of construction.

Key Responsibilities:

- Work and collaborate with fast-paced, talented group of design professionals – have your design voice heard
- Plan, design and furnish interiors of commercial/workplace and healthcare buildings
- Interact directly with clients
- Develop designs that are practical, aesthetically pleasing, and conducive to intended purposes
- Prepare sketches/3D models or complete detail and layout drawings from verbal or written instructions
- Take responsibility for interior design assignments that include all aspects of conceptual design, schematic design, design development, construction documentation, permit processing, and construction administration
- Develop interior design and adaptations independently or under the direction of a Senior Interior Designer and/or Principal
- Adhere to design schedules
- Participate in the preparation of proposal/interview materials to secure new business opportunities
- Development, preparation, and presentation of finish boards, and finishes binders
- Assist in coordination and selection of building and FF&E finishes
- Utilize knowledge of interior design, building and finish materials, construction methods, integration of engineering disciplines and building costs and codes in developing interior designs

Requirements:

Education and Experience:

- Bachelor's degree in design or equivalent work experience
- 6+ years' experience in interior design, design management and design services
- 3+ years creating Architectural interior design solutions
- Workplace/Office and Education experience preferred
- Knowledge of CA codes and requirements
- Experience with city plan check permitting process preferred

Software Proficiency

- Revit (AVRP will provide additional training if needed)
- AutoCAD
- Sketchup
- MS Office Suite – Excel, Word, Outlook
- Rendering skills in any software a bonus!

Salary:

Commensurate with experience

How to Apply:
